Vast Expenditures in 1934 Roosevelt Plan Huge Deficit in 1934-35

Deficit Due Almost Entirely to Recovery Program Costs
NO NEW TAXES
U. S. President Asks One-Third Salary Cuts
Washington, Jan. 4. (AP)—President Roosevelt frankly reported to Congress today a prospective \$1,000,000,000 recovery campaign required for the next two years and added that the bill he planned to send to the United States government in a pay-as-you-go bill for 1934, in the manner of the budget, would be the largest deficit in the history of the United States. He estimated the deficit at \$1,000,000,000 for the next year and \$2,000,000,000 for the following year. He said for a \$2,000,000,000 year when he could not raise the deficit, he would have to raise the deficit in the following year.

He said that the deficit was not a new thing, but a result of the recovery program. He said that the deficit was not a new thing, but a result of the recovery program. Large Factories Operating Cheaper Than Smaller Ones

Based on Study of 128 Ontario Factories

Large and efficiently equipped factories are making cheaper in Ontario than smaller ones, according to the study published by the Ontario Department of Agriculture and Colonization. The study, which was made by the Ontario Department of Agriculture and Colonization, and presented at the Ontario Agricultural Convention at Toronto, shows that the cost of production in large factories is lower than in small ones.

Mr. Parker explained that the information was based on the study of 128 factories in Ontario, which had a total output of \$1,200,000,000 in 1932. The study showed that the cost of production in large factories is lower than in small ones.

The study also showed that the cost of production in large factories is lower than in small ones. The study was made by the Ontario Department of Agriculture and Colonization, and presented at the Ontario Agricultural Convention at Toronto.

There were two main reasons for the lower cost of production in large factories. The first was that large factories had a higher output per worker than small ones. The second was that large factories had a lower cost of raw materials than small ones.

5 STARS OF SATURDAY'S GAME

SELECTED BY—Charles J. Quinn

Leafs Delayed Attack Overcame Boys' Brigade

Buck Boucher's Boy Scouts from the Ottawa Valley, showing great speed on the trails and expert path-finding around the goal mouth, dashed into a two-goal lead on the Leafs in the fastest first period that has rocked the rink this Winter.

But after the intermission the Maples leaped out on the ice as though the dressing-room had exploded (which was quite possible) and turned on an attack that completely bewildered the Boys' Brigade. Chuck Conacher, with his sensational entrance, and King Clancy, dashing about in inspiring fashion on his heels, featured this roving rally.

However, the young visitors, led by Jerry Shannon of the Niagara Patrol, continued to give an astonishing display of play-off possibilities until it was well past their bedtime. They fought it to the finish in the teeth of a rising blitz of Leaf Goals.

AT THE CAPITOL

"LADDER MUST LOVE"

A cat's paw is a dangerous tool for a diamond burglar—but it's a stronger place for a girl's garb.

On the terrace of a New York City apartment house, Katharine Hepburn, starred as the girl who is the "ladder" in the diamond heist, is seen in a scene from the picture, "The Diamond Thief," which is being shown at the Capitol.

Her co-star, James Cagney, is seen in a scene from the picture, "The Diamond Thief," which is being shown at the Capitol.

Many movie-goers are no doubt familiar with the story, the tale of a diamond heist, the tale of the development and enactment of the

and the characters are infused with life. Marmee, the mother of the "Little Women" portrayed by Shirley Boylston, who leads her daughters through the formative, dangerous years of girlhood. Grumpy old Aunt March (Mina Farrow) is a real hoot, and the young lady's life rather miserable for Jo and then she's become by conscience by making a "great lady" of Amy. Henry (Stephen H. RUDY VALLEE

(Continued from page one)

Last fall, Mrs. Vallee said that "with brains efficiency" he wrote a note in which he said "Leonie, my first wife, was a fine woman and real loved me" and that he thought he would have perfect happiness in his third marriage. The Santa Monica girl is his second wife.

—Shirley Mathis

Mrs. Valdez said that after she returned to New York, in the spring of 1934, she learned that her mother, placed a device in her apartment by which all telephone conversations were recorded. She said he was unable to obtain any evidence of illegality on her part and so "in his last gasp and persistence" he threatened to obtain a divorce in Mexico.

Flying her with Meyer, sending her gifts and writing affectionate letters, she claimed that he tried to "pull" her into a telling series of security meetings with Meyer. She also said, under oath, to symposiumists, that she was a "shameless" and "pro-Isaiah" person, perfectly willing, through "complete lack of conscience and greed," to do just about anything for \$100 a week.

FUNERAL OF LATE MRS. S. BIRD IS LARGELY ATTENDED

Curran, Jan. 10.—The funeral services for the late Mrs. S. Bird, who died on Monday last, were held at 10 o'clock this morning at the residence of her son, Mr. S. Bird, 100 St. George Street, and were attended by a large number of friends. The Rev. Mr. S. Bird officiated at the service. The interment took place at the Mount Pleasant cemetery. Mrs. Bird was born in 1845 and was 88 years of age at the time of her death. She was a member of the Methodist church and was a devoted wife and mother. She is survived by her husband, Mr. S. Bird, and several children. The funeral was a simple one, but it was a fitting tribute to a life well lived.

"Black Crows" are Separated by Death of Chas. E. Mack

George Moran, Bereft of
Mate Once Played
at Belleville

IN WIZARD OF OZ

Charles E. Mack known to millions of radio fans throughout the continent as a member of the "Two Black Crows" vaudeville team, died last evening from injuries received in an automobile accident near Milan, Ontario, George Moran, the other member of the famous radio team, Mack Bennett, motion picture producer, Mrs. Mack and Mary Jane Mack, daughter, all riding in the same car, escaped unhurt, except for minor cuts and bruises.

Although Charles E. Mack was not in familiarity known in this section, Moran, known to professional radio circles, was the first Canadian to appear on the radio in the United States, and was the first Canadian to appear on the radio in the United States, and was the first Canadian to appear on the radio in the United States.

There, Jan. 10-1929, two days before he was killed, he was driving his car on the road from Belleville to the east of Fergus, Ontario, where a collision occurred with a truck belonging to the Canadian National Railway.

NO PRICE CUT IN GASOLINE SEEN HERE

"Twenty Cents Matter in Toronto,"
is Contentment Here

When the price of gasoline was in Toronto found no echo in this city today. Motorists were still paying the regular price of gasoline, and according to local officials of various oil companies, no reduction in price is contemplated.

"As far as we're concerned it is just a matter for Toronto companies and we're not mind to it. Our prices are just the same," said the officers of one company. "Our prices are just the same as they have been and we've had no word from head office as yet."

Another officer reported that "business was as usual" and no reduction had been made.

According to Toronto press service stations of oil companies to that city were quoted as saying "no cut" as a retail price of one popular brand set at 14½ cents, the provincial tax of six cents added.

Pitched Hay with Harvesters New Canadian Girl Now in Clover

ANKA MEYER, STONEMELDER

When she left home for Ontario a few years ago, Anka Meyer, Stenmelder, had but two in her mind, to work and to learn English. That word was "Pines" and she was with it. Arrived in Canada, Miss Meyer-Stenmelder, looking for the work and the "golden opportunity" of the harvest, found that the former she expected she found she had to masterpiece as a stonemelder. That young Swedish girl is now a naturalized Canadian, who helps the Stenmelder and talks like Ontario.

Mad Competition in Creamery Business Contributes to Economic Difficulties Says Creamery Instructor

London, Ont., Jan. 12.—(C7)—Mad competition in the creamery business has contributed to the economic difficulties which may lead to serious sacrifice of business quality in Western Ontario, according to the report of J. H. Frost, chief creamery instructor, speaking to the 67th annual convention of the Ontario Association of Women Ontario here.

Said Mr. Scott: "Owing to the low prices of butter the prevailing during the past season, we find the creamery business generally reported as showing red on their balance sheets, some of them to such an extent that they have ceased to operate, or have gone into the hands of creditors. Nevertheless, this I suppose there has not been a year in the last decade or two in which so many creameries have been forced to close."

"Each about opened adds to the burden of the others over burdened of business."

"Where there is keen competition for volume, quality will be sacrificed," continued Mr. Scott. "Because all the creameries are selling at low prices for all his products, he is not in a position to study the price of poor quality, and he is resorting to substitutes from the creamery men who are too busy earning in this mad competitive cream trucking race." The farmer as a class appears to have little interest in the business methods of creamery operators and have adopted a rather naive attitude of "The equipment of some creameries has become so out of repair that using of purchasing tools and worn out churning are causing first grade cream to make second which is worse than first. When producers take the necessary care to produce good cream, we feel the creameries should not be allowed to do damage to the public."

Mr. Scott went on to tell of the fact that the cost of transportation of cream was constant then there was no more money over than what was paid for the cream. This would not suit, he pointed out.

PLAIN FACTS

Speak Louder than Mere Words!

For Your Sake You Must Give Utmost Consideration to **QUALITY** in Glasses! In Fact Glasses Can Even Be Bought For 15c — Frames and All — But Never in the World Would They Be Guaranteed to Fit Your Eyes or Correct Your Vision!

QUALITY — NOT PRICE COUNTS!

The problem in optometry is not nearly so much in getting down to a price . . . as it is . . . **KEEPING UP TO A QUALITY.** Glasses for your eyes must fit perfectly. There is no such thing as "half-way" . . . That's why I do not make it a practice to sell "cheap" glasses. The only pair of eyes you will ever have are too valuable to be put on a dollar and a cent basis. My plan is to give a thorough scientific examination and fit your eyes to the exact type of lenses required. This is true even in our least costly glasses—which are fitted also in modern, stylish mountings. Regardless of the price, **THE MAJOR GUARANTEE OF UTTER SATISFACTION IN EYE COMFORT** will be given you—backed by 38 years' experience as a practicing optometrist.

COMMISSION ADVOCATED TO HANDLE ALL RELIEF

Provisional Committee
Matter Should be Without
Political Control

Quebec, Jan. 12.—Owing to the fact that the Dominion government is not in a position to handle the problem of unemployment relief, a provisional committee was set up to look after the matter. The committee is to be made up of representatives of the Dominion government, the provinces, and the municipalities. The committee is to be given the authority to handle all relief matters, and to be free from political control.

needed to be used for unemployment relief. The Dominion government was guaranteed by the Dominion provinces and the provincial governments concerned. Three men would form the committee, and the other two would be representatives of the Dominion government, the provinces, and the municipalities.

They would be paid and they would have full control of all relief matters. The committee would be free to handle all relief matters, and to be free from political control.

bottom. Suppose, he said, under the plan proposed, Quebec was to contribute a year to spend for the relief of unemployment. The expenditure, funded in six-year terms, would cost the province \$100,000 a year. The Dominion government would be paying \$100,000 a year, and the provinces would be paying \$100,000 a year. The Dominion government would be paying \$100,000 a year, and the provinces would be paying \$100,000 a year.

THREE FAMILIES OF BELLEVILLE. As Belleville that time are improving Three families was supporting thirty-five families through relief last year as this time while there are only three families making aid at this time. However unless some work is provided shortly there will be several more families added to the list within a short time. —Tweed News.

Trenton Intermediates Tied by Cobourg "Waverleys" in Final Minute of Contest

Trenton Had All The Best of It in Heavy Going

POWERS HURT
Cut Over Eye by Flying Stick And Out For Period

Trenton, Jan. 12 (Special).—The local intermediates were robbed of victory over Cobourg last night when with only one minute to play Powers lost his head in a crash with the ball.

Each team played the first ten minutes overtime. Cobourg scored twice in the second stanza. Powers was cut over the eye by a flying stick and was out for a period. With only one minute to play Cobourg was unable to break a draw which was the result of the tie.

DESERVING OF SUPPORT

Central Ontario Commerce Crusaders have by their battery—"Trade Ontario for Britain Co."—around the province. This is the achievement of the group of Belleville men who have pointed out the possibilities of the province.

Both Toronto morning papers and the newspapers of Eastern Canada have taken up the challenge of the opportunity in trade and important developments will probably come so fast that the time will be given to be gratified with the success.

But the scheme is large and will provide many take up. Yet after all the real success must will live with the smaller groups which so far out the trade and exchange. What is meant is this—the cry has been sounded and the work is just beginning.

Mr. W. E. Schuster has done very fine work in connection with bringing the attention of the Bay of Quinte and the Province to the amazing possibilities which lie ahead. He will be able to do more to work and all his friends believe that his agitation has been making it so on the eve of success.

The Globe pointing out the efforts of the Belleville group, the Central Ontario Commerce Crusaders, remarks: "The advantage of providing Canada with ways in which to trade study will show that this can be done with a great variety of goods and services and its neighbors have started a movement deserving of support and one which will go far beyond the limits of Central Ontario. While it is growing beyond these limits, it must be to the situation as was last autumn. Belleville district farm products finding their way to the British market."

The interest in the future of the present project is that the trade will follow the established channels and the method has to be set up. But contact is necessary and the smaller places in Ontario just as much as the larger ones. These contacts and developing them as the province. The province is an active group can do much more with profit to the municipalities and the province at large.

The new car is a real thing ahead. The automobile has taken a real step forward from the standpoint of elimination of wind resistance, and on the score of the equipment of the car as well as speed. And all the while as these improvements are being made, the cars are being added which were the 1934 model a long way from the present type which used to be a real thing.

The new line makes it come to stay, it would seem. The plan is more and more to put the car in the place of a real thing flying through the air. It is also more and more the trend to the car such that the greatest safety to the driver and his party may be secured.

The airplane is making its influence felt upon the car construction particularly in the engine. The changes are in some cases radical and in other firms less so. The changes in construction do come in one line—the changes come rather in hops in order to try out public feeling. But the pure feeling cannot and will not be the dictate of the engineer, where the pure feeling of the mechanic and the pure feeling of the engineer such that advanced streamlining is necessary, it will come and will stay.

WORSE THAN WARS
A return from the front has been made in a British House of Commons recently, given figures showing the seriousness of the situation that has developed in England and Wales through highway accidents. In 1933, 4,684 persons were killed and 101,936 injured by accidents caused by vehicles and horses in those two countries. Comparative statistics for the year 1930, what a menace highway accidents are becoming. From 1929 to 1933, the return in question was more than 48,400 persons have been killed and 1,356,744 injured in Great Britain, a total of 1,405,148 in 1934 more than all the British killed in the Great War. Compared with the casualty list from these accidents, the number of deaths by death in the Great War from all causes, including disease, 20,723, is less than the number of killed and injured on the roads and highways in this country at the present rate. The return goes into quite complete details, showing that the roads have been made a little better to do with these innumerable snafus.

PASTOR WIFE HONORED BY CONGREGATION

Hold Annual Business
Meeting of Kingston Rd.
United Church.

The Kingston Rd. United Church held their annual congregational meeting on Sunday, January 13th, at 8 o'clock. The pastor, Mr. J. H. Fisher, was the guest of honor. After prayer by the ladies' prayer group, the pastor presented a report on the work of the church during the past year. The report was well received and the pastor was thanked for his work. The church was then closed by the singing of hymns.

Twyn—On Wednesday evening a few scores of interested students and friends of the people of the Republic of Ireland, gathered at the O'Connell Hotel, to hear their countrymen under the auspices of the Irish Women's League, for the purpose of raising money for the relief of the famine-stricken people of Ireland. The efforts of the youth-ful performers were warmly appreciated by the appreciative audience.

Joseph McElroy, one of the Republic's most noted vocalists, was the featured soloist, and was much applauded. The program consisted of songs, recitations, and a play, "The Old Story," which was followed by a brilliant and clever dance. The Irish music was played by the Irish band, and the Irish dance was performed by the Irish dancers. An important ANNOUNCEMENT to car owners regarding PASSENGER TIRE GUARANTEES

Before January 1, 1933, tires made by the companies
whose names appear below were guaranteed against faults in
material and workmanship only.

DURING 1933
One year ago, on January 1, 1933, announcement was made
that all straight side passenger car tires for use in private service
would be sold after that date under a written guarantee against
all road hazards, except punctures and running flats, for a period
of twelve months or nine months, depending on the grade of
tire, and that a certificate of such guarantee for each tire would
be issued to the purchaser.

Tires purchased previous to the introduction of the written
guarantee carried the former guarantee until the end of 1933.
This period now having expired, no further claims can be con-
sidered on any passenger tires used in private service unless they
were purchased since January 1, 1933, and are accompanied
by the guarantee certificate.

AND NOW
If you purchased, during 1933, tires made by any of these
companies, and did not receive a written guarantee, you should
at once see the dealer from whom such tires were purchased,
and get a guarantee certificate, giving date of purchase of each
tire.

IN FUTURE
Purchasers of straight side tires for private passenger car
service hereafter should be sure to obtain from the dealer a
written guarantee with each such tire purchased. Purchasers of
cars should get a similar guarantee for each new tire on the car
at the time of purchase.

After this date follows, branch offices and service departments
of all companies can entertain no claims for adjustment of such
tires unless ACCOMPANIED BY THE WRITTEN GUARANTEE FORM.

Revaluation of Canadian Dollar Predicted Due to Move of Roosevelt

Would Stabilize Exchange Between Canada and U.S.

15 TROY GRAINS

Prices Within Canada Might Be Raised After Private Dealer Helped

Ottawa, Jan. 17.—Parliament will be asked before the end of the session to approve a government bill reducing the gold content of the Canadian dollar. It was believed to reduce the gold content of the Canadian dollar, it was believed to reduce the gold content of the Canadian dollar, it was believed to reduce the gold content of the Canadian dollar.

The bill, the portion of Canada's external trade and financing is carried on with the United States and the United Kingdom, and there are widespread demands from exporters as well as importers for the early stabilization of our fluctuating exchange rates with those countries. Canadian exporters insist that the dollar is undervalued for more than thirty days, and the uncertainty with respect to exchange has been reflecting itself on trade, credit and on the high tariff wall which has been erected in all countries.

The value of the Canadian dollar has been recently depreciated a value in the last gold standard week of more than 10 per cent. In other words, the dollar has been reflecting itself on trade, credit and on the high tariff wall which has been erected in all countries. The value of the Canadian dollar has been recently depreciated a value in the last gold standard week of more than 10 per cent. In other words, the dollar has been reflecting itself on trade, credit and on the high tariff wall which has been erected in all countries.

It is now an settlement in favor of the dollar, and the new gold standard will be taken on the initiative of the government. It is now an settlement in favor of the dollar, and the new gold standard will be taken on the initiative of the government.

BEGINNING FRIDAY EMPLOYEES WEEK AT THE D.D.

There are 20 Canadian Department Stores throughout Ontario. Naturally, there is friendly rivalry between them—each trying to outdo the other for the leadership of the entire chain each season.

EMPLOYEES' WEEK is a friendly competition between the employees of our stores to decide which store is the leader for the entire chain. The employees of the winning store will be awarded a banquet.

The Store that gives the best service and offers the best values during 'Employees' Week' is the winner. You, our customers, are the judges. 'The response you give for our efforts will decide if we are the leaders.'

Everyone in the Store is enthusiastically behind this event. We are determined to set the pace in value-giving. We have planned many.

CONDITION OF SENATOR FORKE QUITE GRAVE

Suffered Heart Attack Early Th

Year
Winnipeg, Jan. 23 (CP)—Senator Robert Furbert, "the pioneer of E-pestatene," was fighting for life in hospital here today. Despite his gallant struggle, physicians feared he would die.

Stricken with a heart attack two years ago, Senator Furbert was removed to hospital. His condition improved but he contracted pneumonia but it gradually became worse. For the past few days he had been battling between life and death.

Furbert, 67, was born in New York when he farmed in the Pipestone district, and later when he went to the House of Commons and then to the Senate. He had been in contact with the hospital for word of his progress.

The courageous spirit and the many life saving operations have earned him the title of "the gallant fighter" in the fight for his life.

The former leader of the Progressive group in the House of Commons, Furbert was a member of the

TRAFFIC INCREASES ON ALL RAILWAYS

Partly Due to Falling Off of Traffic on Highways

Increased traffic, both passenger and freight, has come to the highways of this district during the past month or so following the fall-off in sea and transport traffic over the highways. According to one official of a local line, who was questioned today, while recent waves of unreasonable weather have contributed to the gain of the railways, the increase in traffic has also been the general result of better business conditions throughout the country.

TARZAN AT THE EARTH'S CORE

By Edgar Rice Burroughs

There and Zaozo had run but a few yards when a dense mass arose upon them and from them to the ground in an instant their wilder were bound to their captors. They were jerked rapidly to their feet and the American, still entirely unconscious, was held by the captives. "You are the king of the jungle," said the captives. "You are the king of the jungle," said the captives. "You are the king of the jungle," said the captives.

Our cultured policy of reconciliation between the two races in Hastings County has been the subject of much comment in other parts of the Province, but the speaker who has been invited to address the meeting must still be protected by speech this evening must be Hastings County Commissioners.

It is a pleasure to hear that, rather for hard work. This work, been made doubly hard this by the removal by death in the past year of the speaker's father. We can only express in a somewhat less degree we sympathize in this matter.

Lallemand's fresh Yeast cakes
A NATURAL CORRECTIVE
for constipation...

TO ALL those who are suffering from constipation and the troubles which are so often caused by constipation—headaches, loss of appetite, indigestion, under-weight, tired feeling, pimples and boils—the news that Lallemand's *fresh* Yeast is now available is good news indeed. For Lallemand's *fresh* Yeast is the new natural corrective for constipation—of this yeast coats less than the size of the chicken is as large, more than 1/5 larger than the usual chicken size. Taken regularly, it gives your muscles of the intestines more exercise to grow stronger and exercise which results in regular movement of the bowels, and victory over constipation as its usual depressing and irritating symptoms.

Simple Diet
If you suffer from constipation, a simple diet is recommended. This diet is based on the following principles:

wish to feel strong and
mand's Yeast. It can be taken
about 5 years up. From
should be taken daily, bet
meals, plain or spread on b
solved in about a third of
water or milk.

**Lallemand's name is
guarantee of high quality**

Lallemand's have been making food and health products for many years. Every step, including daily delivery to grocers and druggists, is taken that science and experience can suggest as a means of placing *fresh yeast*, of the highest quality, in perfect condition, where you can buy it. Remember that the yeast which is recommended by medical authorities is composed of thousands of living organisms, and that experiments have shown that yeast in which these organisms have been killed is of little worth.

Another important reason why Lallemand's *fresh* Yeast is so effective in building up strength and health is that it is very rich in vitamins B, G and D.

So take Lallemand's Yeast regularly, to insure that clogged intestines won't poison your system, and you get a good supply of vitamins.

date, they showed great improvement in their game. The P.M.C. midweek and they are looking forward to their game with the western team whom they expect to take in, to camp.

The Deacon A.C. team, although of junior age, are a smart performing outfit and on their showing to date in the current season, they should be able to make it an interesting battle for any team of intermediate rating. They were runner up in the second game of the evening following which there will be the home test on date.

Missionary

SUDBURY, Ont., Jan. 27.—(CP).—Unless steps were taken to educate children of settlers in the north, Pagan communities would spring up, warned Rev. J. O. Cochrane, superintendent of the United Church.

Missionaries in Northern Ontario when he returned from a visit to 12 relief settlers between New Liskeard and Hearst.

The young settlers, according to the missionary, were "like young an

imals running wild" and did not have the opportunity of attending either day or Sunday schools.

"Now we like to lay the burden on the whole church," he stated. "It is useless for the church to talk

about a better distribution in the state unless there is a better distribution in the church. We ought to have three new charges in the Tenckawanning field for the people who have come in from all parts of the

Mr. Cochran stated school inspectors had told him settlers had to agree on the location of school and that in some cases they had

not been able to do so, so school could not be built. "I cannot satisfy myself that children should suffer because their parents are too foolish and too much concerned with foolish rivalries to agree on anything," he added.

THE WEATHER

Toronto, Jan. 27. (CP)—Light moderate snowfalls have occurred in Ontario, Western Quebec and some parts of the west, while it has

been fair and cold in the past few days. Pressure is low to northward of the Great Lakes with high pressure and decidedly colder weather likely to extend over the western provinces from the north. Pressure continues high over

Northern Ontario—Cloudy and mild today and early Sunday with local snow flurries, followed by northwesterly winds and turning much colder with light snow.

DUELING

Two Frenchmen with a sense of honor came back to the streets of "The Three Musketeers" had to duel over the crash of the banking house in Paris and the collapse of the government and the people lost millions of francs. They fired at one another but four bullets missed their targets and they were satisfied.

Where was the satisfaction? The duel that carried out in the open, though they did not intend to kill, as duels they did not do that to do, for they have fallen into the hands of the law. Or did they know that the bullets would be fired without aim? Did one trust the other to no harm to him? Or did they find satisfaction in knowing they had risked their lives?

The only explanation is that it is the United States. It would not be a British or French way. Possibly the French style does less harm than an ocean of violence poured forth by the flamethrower or other places, played up by the press which would really cause a bullet, the course of which is misdirected.

The two Frenchmen have received the commendation of bullfighting that in returning to the old French way they have given themselves to the French. Canadian might call it all fake and bunk, but not so those who see the very essence of the French way of life.

Now two more Frenchmen want to fight, but in the name of the law and for their honor.

SEASONAL LAY-OFF DECLINES

The seasonal lay-off of workers after Christmas has been the most on record in Canada, according to the Dominion Bureau of Statistics of the Department of Trade and Commerce. The twelve year record of employment maintained in the past has been broken by the decline at the beginning of January. (No average lay-off of 50,000, the year lay-off was 30,587, slightly more than half the average lay-off of the past years.) The decline was also the smallest off-record for mid-winter.

Over 100,000 workers, employed by 8,460 firms reported on January 1 as compared with 100,000 in 1933. The first year only saw 7,947 firms reported 721,008 workers engaged.

The decline was also the smallest off-record for mid-winter.

WATCHING TAXES

Never in decades have taxes been so closely watched as they are at this time. Not only councils but the citizens generally are studying budgets and are going to study budgets with more and more interest than ever.

There is a feeling that business will speed up more rapidly than in the past. It is admitted that business is heavily burdened by the drains of taxes made up on it.

One newspaper commenting on the cost of recovery in the United States says the cost will be staggering and will have to be borne by business. Expansions which are naturally to be expected will be held back by reason of the tax load resting upon them, for the capital which would be required for the expansion of the government treasury to pay the cost of administration. This is true in Canada and in the United States.

Montreal Gazette says that while Canada's NRA is not as strict as the United States in the effort to recover prosperity, the same principle is at work, namely that the recovery of the economy must be made. It commends the Ottawa Government for the steps taken to reduce the cost of government but it is doubtful if the present plans will reduce the cost to the taxpayers materially.

The Citizens' Research Committee of Montreal is urging the Government to collect taxes in 1934 do not exceed the total collection of taxes in 1933. That is a fair plan. It is a plan which is fair to all municipalities can adopt that suggestion, but if so, it will be a great step forward. It is a plan which is fair to the former taxpayer power of the citizens is to be recovered. It is a plan which is fair to the former taxpayer power of the citizens is to be recovered.

Physical death is an incident, a transfer from inconsequences of the human personality to the consciousness of the Divine.

GET ACCOUNT

A swift, unhampered river current is power going to waste. Hydraulic engineers build a dam and a storage house to gather a head of water for the generation of power.

A savings account is like a dam behind which to store up power—the power of capital.

Your earnings are like the river with the swift current. Unless you build a dam, the power is wasted.

With the gathering power of a savings account behind you, you may plan bigger things in your life.

You may open an account, though your first deposit be no more than one dollar, at any one of our 700 branches.
